

**VANCOUVER BUBBLE SOCCER RENTAL SERVICE**

## **Safety Guideline**

Your safety is important to us - apart from the safety briefing prior to the game, please ensure all your friends read the below safety guideline in advance.

### **Before the game:**

- Players who are injured, pregnant, claustrophobic or suffering any other form of physically limiting illness are not allowed to play.
- All players should wear appropriate sports clothing and sports shoes to minimize risk of injury. All personal belongings such as watches, rings, earrings, necklaces should be taken off.
- Knee pads may be preferred by players because if you fall, you will be using your knees solely to balance and stand up while your hands are in the bubble.
- Corrective glasses are not recommended, as this is a contact sport after all, they can fall off when you get hit. Contact lenses and sports glasses are ideal.
- We will give a safety briefing before the event starts; all players are required to arrive on time at the venue for that. It is the responsibility of the client representative to ensure that any player who has missed the safety briefing needs to notify us before playing.
- We will require all the players to read and sign the waiver form before the game starts. It is the responsibility of the client representative to ensure all players have read and accepted these guidelines and legal terms and conditions before signing.
- All players are advised to warm up before playing to minimize the risk of injury.

### **During the game:**

- Please **put on the shoulder straps** and **hold onto the handles** during the game.
- Please **keep the hitting near the soccer ball** and **do not hit players from behind**, as it will hurt their knees as they fall to the ground.
- Please **do not hit players who are already on the ground**, as their legs are exposed, you can step on their ankles, calves, or knees, etc. And it also hurts their back.
- Please **do not hit players toward the goals, walls, audience and staffs**.
- Please **stay within the boundaries**; if the ball is out of bound, our staffs will get it for you.
- Please **do not attempt to lie down and block the net**. No goalie is allowed in this game.
- Please return to your side and line up beside the net whenever a goal is scored.
- Please **always listen to the whistle of the referees** to stop/start a game.
- Please pay special attention to avoid damages to the facility; we will not be liable to any damages caused.
- Please always **keep in mind that safety comes first**, do not play over-aggressively.

Lastly, please have fun and share the laughs with your friends!
